## SKILLS

|                            |                               |                              |              |
|----------------------------|-------------------------------|------------------------------|--------------|
| React.js / Next.js         | Node.js / Express.js / NestJS | MongoDB                      | PostgreSQL   |
| Socket.IO                  | JWT Authentication & RBAC     | Zustand                      | Tailwind CSS |
| JavaScript / TypeScript    | RESTful API Design            | Data Structures & Algorithms |              |
| System Design Fundamentals | Git / GitHub                  |                              |              |

## EMPLOYMENT HISTORY

### OODLES TECHNOLOGIES PVT LTD.

Associate Consultant - Development | Delhi | May 2025 - Present

- Built and maintained full stack applications across AR/VR, Industrial IoT, gaming and social media domains.
- Developed scalable REST APIs, authentication systems, and backend services supporting real time and high concurrency workloads.
- Developed real time communication features using WebSockets, Socket.IO, and Agora for collaboration and live synchronization.
- Developed analytics dashboards and visualization tools for monitoring operational and application metrics.
- Integrated AI driven report generation and business intelligence workflows with Grafana based data visualization.
- Delivered responsive frontend experiences and optimized backend performance for production environments.

## PROJECTS

### FLOWSPACE - WORKSPACE MANAGEMENT SYSTEM

- Built a real time collaborative workspace platform inspired by Notion, Trello, and Jira using the MERN stack.
- Implemented workspaces, boards, task management, and document collaboration features with live synchronization.
- Developed JWT based authentication and RBAC to support secure multi user collaboration.
- Utilized Socket.IO for real time updates across tasks, boards, and shared workspaces.
- Built a responsive frontend with React, Tailwind CSS, and Zustand and deployed the application using Vercel and Render.

## INTERNSHIPS

### GALANTO INNOVATIONS PVT LTD.

Software Developer Intern | Gujarat | Dec 2024 - Feb 2025

- Developed dashboard components and responsive user interfaces using React.js, integrating backend APIs for data management and visualization workflows.
